UCSF Facts & Figures

UCSF became part of the University of California in 1873 and is the only UC campus dedicated exclusively to the health sciences. Built in 1897, the University of California, San Francisco includes the 107-acre Parnassus campus, UCSF Medical Center; UCSF Children's Hospital; and Langley Porter Psychiatric Institute. Other UCSF sites include UCSF Mount Zion and additional properties located throughout the City. UCSF maintains partnerships with two affiliated institutions, San Francisco General Hospital Medical Center and the Veterans Affairs Medical Center. In 2003, UCSF opened its 43 acre Mission Bay campus, just south of downtown San Francisco.

- Chancellor: J. Michael Bishop, MD
- Number of students: 2,800
- Number of Faculty and Staff: 18,600 full- and part-time
- Number of residents (physicians, dentists, and pharmacists in training): 1,325
- Number of UCSF postdoctoral scholars: 800
- Number of countries represented among the students and postdoctoral scholars: 60
- Number of current major sites in San Francisco: 12
- Projected completion date of Mission Bay campus: 2020
- Projected number of employees at completed Mission Bay campus: 9,000
- Annual budget: \$2.3 billion
- Research awards from all sources: \$723 million
- Research awards from public sources: \$593 million
- National ranking of UCSF's National Institutes of Health funding: 4
- Nobel laureates: J. Michael Bishop and Harold Varmus, 1989, for discovery of proto-oncogenes, showing that normal cellular genes can be converted to cancer genes; Stanley Prusiner, 1997, for discovery of prions, an entirely new infectious agent implicated in rare, slowly progressing brain diseases such as mad cow disease.
- Number of National Academy of Science members: 35
- Number of Institute of Medicine members: 73
- Number of life science companies with direct roots to UCSF inventions, technology or personnel: nearly 70
- Number of patents: more than 750 issued foreign patents, including seven of the UC system's top 11 revenue producers — hepatitis B vaccine, yeast expression vector, aids for learning disabled, a cochlear implant helping deaf people to hear, a technique for delivering medicines to the body's cells, a form of recombinant DNA used for the production of therapeutic agents, and magnetic resonance imaging.
- Economic impact in Bay Area: UCSF generates 23,000 full-time jobs and \$1.8 billion in sales and income (based on data from 2000-01 fiscal year).
- Diversity: Of UCSF staff, 52 percent are minorities and 68 percent are women. Of faculty, 22 percent are minorities and 39 percent are women. In the student body, 54 percent are minorities and 64 percent are women.

UCSF School of Dentistry

Dean: Charles Bertolami, DDS, DMedSc

- Highlights: Founded in 1881; first dental school west of the Mississippi; 368 students; leads nation in federal research funding; more than 120,000 patient visits per year to its 14 dental clinics in San Francisco.

UCSF Facts & Figures

Page 2

UCSF School of Medicine

Dean: David A. Kessler, MD

- Highlights: Founded in 1864 as Toland Medical College; affiliated with UC in 1873; 602 students; consistently ranks in top 10 of medical schools in US; ranks fourth in National Institutes of Health dollars awarded; three faculty named Nobel Prize winners.

School of Nursing

Dean: Kathleen Dracup, RN, FNP, DNSc, FAAN

- Highlights: Established in 1939 as the first autonomous School of Nursing in any state university; first university west of the Mississippi to offer a doctoral degree in nursing; 602 students; 5 out of 7 specialties ranked first or second by US News and World Report; ranks first in National Institutes of Health dollars awarded

School of Pharmacy

Dean: Mary Anne Koda-Kimble, PharmD

- Highlights: Founded in 1872, first college of pharmacy established in the West and the tenth in the US; 482 PharmD students; ranked number one by US News and World Report; ranks first in National Institutes of Health dollars awarded; first to train pharmacists as clinical health care providers.

UCSF Graduate Division

Dean: Clifford Attkisson, PhD

- Highlights: Founded in 1961, offers 15 graduate academic programs; 806 PhD and 485 masters students; nationally recognized for its wide range of opportunities for graduate study and research in basic, clinical, and policy health sciences - biological, biomedical, pharmaceutical, nursing, and social and behavioral sciences, as well as in physical therapy
